Description

HexWeb® HRH-36 is manufactured using Kevlar® paper. The standard resin system is phenolic. Alternate resin systems may be available upon request.

Features

- Low Moisture Pickup
- Excellent Thermal Stability
- Smooth Cell Wall Finish

Applications

HexWeb® HRH-36 is a high performance non-metallic core, available in a wide range of densities, suitable for most composite sandwich applications. It can be readily heat formed to help produce complex components and offers a weight reduction over higher density Nomex® honeycomb cores.

Standard Dimensions

HexWeb® HRH-36 is currently made in panel sizes 1250 ± 50 x 2500 ± 100mm for thicknesses up to 860mm.

Flex-Core® and overexpanded cell configurations may be available upon request. For requirements involving other size panels, pieces cut-to-size, or formed parts, contact the nearest Hexcel Sales Office.

Thickness Tolerance

Tolerances on cut thickness are as follows:
- 3 to 50mm tolerance will be ± 0.125mm
- 50 to 100mm tolerance will be ± 0.25mm
- 100mm and over tolerance will be ± 3mm

Type Designation

HexWeb® HRH-36 honeycomb is designated as follows:
Material – Cell Size – Density

European Sourced Material
Example:- HRH-36 – 3.2 – 48
Where:

- HRH-36 - designates honeycomb type
- 3.2 - is the cell size in mm
- 48 - is the nominal density in kg per cubic metre

U.S. Sourced Material
Example:- HRH-36 – 1/8 – 3.0
Where:

- HRH-36 - designates honeycomb type
- 1/8 - is the cell size in inches
- 3.0 - is the nominal density in pounds per cubic foot

Dimensional Nomenclature

T = Thickness or cell depth
L = Ribbon direction or width
W = Long direction or direction perpendicular to the ribbon
### Availability

HexWeb® HRH-36 will be shipped from Duxford, UK or Casa Grande, Arizona, USA. Lead times will vary due to core type. Contact the nearest Hexcel Sales Office for delivery information.

### Mechanical Properties

The following mechanical properties are based on preliminary testing of these products at 12.7mm thickness. Tests were per MIL-STD-401.

### For More Information

Hexcel is a leading worldwide supplier of composite materials to aerospace and other demanding industries. Our comprehensive product range includes:

- Carbon Fibre
- Structural Film Adhesives
- RTM Materials
- Honeycomb Sandwich Panels
- Honeycomb Cores
- Engineered Core
- Carbon, glass, aramid and hybrid prepregs
- Reinforcement Fabrics
- HexTOOL® composite tooling material
